SUMMARY

Full Stack Software Engineer with 2+ years of experience designing and developing scalable web applications from concept to deployment. Proficient in React.js, Next.js, Vue.js, Node.js, Fastify, PostgreSQL, MongoDB, Redis, and Python. Experienced in API development, database design, performance optimization, server management, and delivering reliable production-ready solutions.

EXPERIENCE

TechCreatix <i>Software Engineer</i>	Aug. 2024 – Present Lahore, Pakistan
- Developed and maintained full-stack web applications from requirement gathering to production deployment. - Designed scalable architectures and organized codebases for long-term maintainability. - Built REST APIs and integrated third-party services for data-driven applications. - Managed PostgreSQL databases and optimized backend workflows and query performance. - Developed Python scripts for data ingestion and automation tasks. - Collaborated directly with clients, prepared technical documentation, and maintained production servers.	
AcuteDev <i>Frontend Developer</i>	Oct. 2023 – Apr. 2024 Lahore, Pakistan
- Developed responsive websites, e-commerce platforms, and custom web applications. - Converted UI designs into production-ready interfaces with a focus on usability and performance. - Built reusable components and improved user experiences across multiple projects. - Collaborated with clients to deliver tailored solutions while maintaining code quality.	

PROJECTS

PACE Sports Analytics <i>Vue.js, Node.js, PostgreSQL, Python</i>	pace.mysportsanalysis.com
- Developed analytics dashboards and reporting modules for racing data applications. - Integrated APIs and processed large datasets while optimizing backend performance. - Built scalable features and improved query efficiency for data-intensive workflows.	
MySportsAnalysis <i>Vue.js, Node.js, PostgreSQL</i>	mysportsanalysis.com
- Built sports analytics applications and reporting systems handling high-volume datasets. - Developed APIs and optimized database operations to improve scalability and performance.	
PoloReport <i>React.js, Next.js, Node.js, PostgreSQL</i>	poloreport.com
- Developed reporting modules, administrative features, and backend APIs. - Built responsive interfaces and improved usability and application performance.	
Umpire Platform <i>React.js, Node.js, PostgreSQL</i>	umpire.mysportsanalysis.com
- Built role-based access control features and user management modules. - Developed dashboards, reporting systems, and administrative tools.	
Lamiya.pk <i>Next.js, Fastify, MongoDB, Redis</i>	lamiya.pk
- Built and deployed a complete e-commerce platform from scratch. - Implemented API integrations, authentication systems, and Redis-based caching mechanisms. - Optimized SEO, image delivery, and production performance.	
CRM Systems <i>React.js, Node.js, PostgreSQL</i>	
- Developed custom CRM and administration platforms with role-based access control. - Built APIs, reporting features, and database modules based on client requirements.	

EDUCATION

University of the Punjab

Bachelor of Information Technology

2019 – 2023

Lahore, Pakistan

SKILLS

Frontend: React.js, Next.js, Vue.js, JavaScript, HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap

Backend: Node.js, Fastify, Express.js, REST APIs, JWT Authentication, Python

Databases: PostgreSQL, MongoDB, Redis

Tools & Platforms: Git, GitHub, Linux, Vercel, Railway, Cloudflare, Cloudinary
